INDEX 1999

Title Index / Index des titres 1999, Volume 90

12-month prevalence of depression among single and married mothers in the 1994 National Population Health Survey, 320-24

Achieving population health goals: Perspectives on measurement and implementation from Australia, S43-S46

Action structurante de l'utilisation d'un modèle pour la planification de programmes en promotion de la santé, L', 23-26

Advancing the population health agenda: Uniting altruism and self-interest, S66-S67

Aménagement de salons de coiffure, L' : un moyen efficace de réduire les risques, 125-26

Apport alimentaire en sodium, L' : le temps est venu pour une intervention de santé publique, 392-94

AIDS: Focus on youth (Letter to Editor), 143

Alcohol and other drug use among adolescent students in the Atlantic Provinces, 27-29

Analysis of the geographic variation in cancer incidence and its determinants in Ontario, An, 104-8

Applying a population health approach, S62-S64

Are wireless phones safe? A review of the issue, 325-29

Avant la petite enfance : influences, possibilités et risques prénatals (Éditorial), 222-23

Before early childhood: Prenatal influences, risks and opportunities (Editorial), 221-22

Birth cohort effects underlying the increasing testicular cancer incidence in Canada, 176-80

Breastfeeding outcomes of women following uncomplicated birth in Hamilton-Wentworth, 408-11

British Columbia's health reform: "New directions" and accountability, S35-S38

Cancer coverage in mass circulating Canadian women's magazines, 55-59

Capital social et l'amélioration de la santé et du bien-être des populations, Le (Commentaire), 369-71

CAPITALizing on science: Report of a workshop on climate change science and health (insert to 90(6)), I1-I8

Caregiving arrangement and nutrition: Good news with some reservations, 45-51

Charitable food assistance: What are food bank users receiving?, 382-84

Children's feeding programs in Atlantic Canada: Reducing or reproducing inequities?, 196-200

Closer to home: The case for experiential participation in health reform, 30-34

Clustering of severe behavioural, health and educational deficits in Canadian children, The: Preliminary evidence from the National Longitudinal Survey of Children and Youth, 253-59

Cold/flu knowledge, attitudes and health care practices: Results of a two-city telephone survey, 205-8

Collective lifestyles as the target for health promotion, S11-S14

Communication courses in Canadian graduate programs in health promotion, 214-15

Comparing opiate users in methadone treatment with untreated opiate users: Results of a follow-up study with a Toronto opiate user cohort, 299-303

Cost effectiveness of Streetworks' needle exchange program of Edmonton, 168-71

Development of self-rated health during adolescence: An exploration of inter- and intra-cohort effects, The, 90-94

Different wor(l)ds: Three approaches to health research, S18-S21

Discharge of mothers and babies from hospital after birth of a healthy full-term infant: Developing criteria through a community-wide, consensus process, 313-15

Do Ontarians drink in moderation? A baseline assessment against Canadian Low Risk Drinking Guidelines, 272-76

Du bon usage de la science : rapport d'un atelier sur le changement climatique et la santé (encart à 90(6)), E1-E8

Effect of season and weather on suicide rates in the elderly in British Columbia, The, 418-22

Effect of tuberculosis and tuberculosis contact tracing on school function, The: An exploratory focus group study, 389-91

Eighteen-month follow-up of infants fed evaporated milk formula, 240-43

Endiguer l'infection à VIH (Éditorial), 297-98

Enquête épidémiologique sur un cas de tuberculose dans une grande entreprise manufacturière québécoise, 156-59

Environmental tobacco smoke exposure patterns: A subanalysis of the Canadian Human Time-Activity Pattern Survey, 244-49

Épidémie de gastro-entérite d'origine virale associée à la consommation de framboises importées, 37-40

Evaluation of the completeness of reporting of invasive meningococcal disease, 250-52

Factors influencing infant feeding practices of mothers in Vancouver, 114-19

Factors that facilitated and challenged the development of health goals and targets: The British Columbia experience, S39-S42

Firearm safety courses for elementary school-age children (Commentary), 35-36

First reported cluster of foodborne Cyclosporiasis in Canada, The, 399-402

Formative evaluation of an Inspection Certificate Program (ICP) pilot in Toronto, 209-12

From concept to practice: Including the social determinants of health in environmental assessments, S27-S30

Future directions in population health, S68-S70

Geographic origin and risk for congenital infection in a Canadian inner city: Findings and implications for policy, 385-88

Health, environmental assessments and population health: Tools for a complex process, S31-S34

Health, function and survival of a cohort of very old Canadians: Results from the second wave of the Canadian Study of Health and Aging, 338-42

Health indicator development in Alberta health authorities: Searching for common ground, S57-S61

Health surveillance: Changing needs, constant function (Editorial), 149-50

Holding the lid on HIV (Editorial), 296-97

Household food insecurity and hunger among families using food banks, 109-13

How many visits by health professionals are needed to make a difference in low birthweight? A dose-response study of the Toronto Healthiest Babies Possible program, 224-28

How reliable are selected scales from population-based health surveys? An analysis among seniors, 60-64

Incidence of fetal alcohol syndrome in Northeastern Manitoba, 192-94

Incomes and outcomes (Editorial), 366-67

Indicators that count! Measuring population health at the community level, S22-S26

Indices de santé globale comme prédicteurs de la mortalité chez les personnes âgées, Les : une étude prospective de six ans, 66-70

Infant feeding practices in Ottawa-Carleton: The introduction of solid foods, 403-7

Injury experience observed in two emergency departments in Kingston, Ontario during 'Ice Storm 98', The, 95-98

Interactions between smokers and non-smokers in public places: A qualitative study, 330-33

Knowledge of Ontario's Tobacco Control Act in the community of Scarborough, 83-84

Learning needs as perceived by women less than or equal to 16 weeks pregnant, 229-32

Life expectancy at birth at the local level in Ontario, 52-54

Low-risk drinking guidelines: The scientific evidence, 264-70

Maternal outcomes associated with weight change between pregnancies, 233-36

Morbidity and mortality related to human immunodeficiency virus in Canadian men and women, 1987-94, 127-32

Mortality and morbidity related to injuries from falls in British Columbia, 343-47

Multivariate regression analysis of adolescent multiple drug use in two western Canadian provinces, A, 304-8

Newfoundland Panel on Health and Medical Care – Adult health survey, 412-16

Non-nominal HIV surveillance: Preserving privacy while tracking an epidemic, 164-67

Occupational risk factors in Parkinson's Disease, 334-37

On the high road: Driving under the influence of cannabis in Ontario, 260-63

On the right track (Letter to the Editor), 308

Outbreak of mumps among young adults in Vancouver, British Columbia, associated with "Rave" parties, An, 160-63

'People Assessing Their Health' (PATH) project, The: Tools for community health impact assessment, S53-S56

Perception de professionnels de santé publique face à deux dimensions de la promotion de la santé, La : approche écologique et participation, 99-103

Population health: Determinants and interventions (Editorial), 10-11

Population health in Canada: Issues and challenges for policy, practice and research, S71-S75

Population health promotion: Responsible sharing of future directions, S15-S17

Predictors of health risk behaviours among young adults: Analysis of the National Population Health Survey, 85-89

Preparing for influenza epidemics and pandemics in the new millennium (Editorial), 293-94

Prevalence of methylphenidate use among adolescents in Ontario, 309-12

Prevalence of neural tube defects in the province of Quebec, 1992, 237-39

Program to reduce pesticide spraying in the indoor environment: Evaluation of the 'Roach Coach' project, A, 277-81

Proposed air quality objectives for fine particulate air pollution (Commentary), 285-87

Proposed optimal health care system, A (Letter to Editor), 65,71

Public health inspectors in restaurants: What they do and why, 348-51

Public perceptions of the relationship between poverty and health, 13-18

Réduire le tabagisme : encore et toujours un défi pour la promotion de la santé (Éditorial), 78-79

Regional patterns of infant mortality caused by lethal congenital anomalies, 316-19

Relationship between E. coli indicator bacteria in well-water and gastrointestinal illnesses in rural families, The, 172-75
Revenu et ses résultats, Le (Éditorial), 367-68, 426
Role of community organizations in the transformation of the health services delivery system in the Montreal metropolitan area, The, 41-44
Routine child health care in the emergency department (Commentary), 424-25
Santé de la population : déterminants et interventions (Éditorial), 11-12
Screening seniors for risk of functional decline: Results of a survey in family practice, 133-37
Se préparer aux épidémies et aux pandémies de grippe du prochain millénaire (Éditorial), 294, 303, 312
Sexual partnering and risk of HIV/STDs among Aboriginals, 186-91
Shared responsibility for population health: A personal reflection, S65
Social and cultural vulnerability to sexually transmitted infection: The work of exotic dancers, 19-22
Sociodemographic predictors of smoking cessation among pregnant women in Canada, The, 352-55
Sources of cigarettes for high school students in two Ontario counties: Implications for developing a community response, 395-96
Surveillance de la santé : des besoins changeants, une fonction constante (Éditorial), 151, 155, 180, 185
Telephone-based support program for over-the-counter nicotine patch users, A, 397-98
Time since immigration and excess body weight, 120-24
Tobacco reduction: A continued health promotion challenge (Editorial), 77-78
Toward a lexicon of population health, S7-S10
Trends and variations in perinatal mortality and low birthweight: The contribution of socioeconomic risk factors, 377-81
Tuberculosis screening and chemoprophylaxis project in children from a high risk population in Edmonton, Alberta, A, 152-55
Understanding the determinants of health: Key decision makers in Saskatchewan Health Districts and Saskatchewan Health, 1998, S47-S52
Validation of self-reported transfusion histories in renal dialysis patients, 201-4
Violence exposure and mental health of adolescents in small towns: An exploratory study, 181-84
When to be skeptical of negative studies: Pitfalls in evaluating occupational risks using population-based case-control studies, 138-42
Widening regional inequality in premature mortality rates in Manitoba, 372-76
Xenotransplantation and public health: Identifying the legal issues, 282-84
Youth smoking in Ontario, 1981-1997: A cause for concern, 80-82
